

Norton™ 360 for Gamers

Comprehensive protection with features designed for gamers' unique needs.

Opt-in to Cyber Safety™

Game Optimizer¹

Norton GO directs more power to your game, maximizing speed for an immersive experience. Boost your performance for smoother gameplay and get the most out of your rig!

Notification Optimization²

On your PC, we'll only notify you if we detect you are under attack, your protection is at risk, or you aren't using a feature you're entitled to use. Fewer notifications and more control over product & service reminders.

Full-Screen Detection³

Device security for PCs that detects when you're using full-screen mode, and silences all but critical security alerts.

More Features

Dark Web Monitoring[§]

We monitor the dark web and notify you if we find your personal information, including your gamer tags, usernames and email addresses.

50 GB Cloud Backup^{2,5}

Automatic Cloud Backup for PCs - store your game clips online, freeing up space on your drives.

Secure VPN

Browse more securely and anonymously by masking your IP address with a no-log VPN to help protect against DDoS attacks, doxing and help prevent SWATing.

SafeCam for PC²

Help prevent potential stream bans and embarrassment that could result from someone trying to access your webcam. We'll notify you if we detect that someone tries to access your webcam, and we can help you block them.

Password Manager⁴

A strong password is important to help protect your game accounts. Let us help you store complex passwords, credit card information and other credentials online – more securely.

Smart Firewall for PC

Monitors communications between your computer and other computers and helps block unauthorized traffic, helping protect your personal files and financial information.

Real-time Threat Protection

Advanced security with antivirus helps protect against existing and emerging online threats to your device, and helps protect your private and financial information when you go online.

Parental Control[‡]

Support a healthy gaming hobby with screen time limits and control over access to inappropriate apps on desktop and mobile devices.

How To Install

1. Visit <https://www.norton.com/setup> on a web browser.
2. Create an account, and if you don't have one it's easy, just use your email address.
3. Enter the 25-digit product key.
4. Click Next and follow the on-screen instructions.

System Requirements

- Norton™ 360 for Gamers covers up to 3 devices.
- Norton™ 360 for Gamers supports Windows™ PC, Mac®, Android™ and iOS devices. Not all features are available on all devices or platforms. For detailed system requirements information: Norton.com/ns_sysreq.
- Parental Control, Cloud Backup, Game Optimizer, Notification Optimization and SafeCam are presently not supported on Mac OS or Windows in S mode.

¹ Game Optimizer is only available on Windows (excluding Windows in S mode, Windows running on ARM processor) with 4 or more core processors

² Cloud Backup, SafeCam, and Notification Optimization features are only available on Windows (excluding Windows in S mode, Windows running on ARM processor).

³ To suppress most alerts for Windows, full-screen mode must be in use.

⁴ Norton Password Manager is not exclusive to Norton 360 functionality but is independently available for free online.

⁵ To activate backup of video files or game clips, you will need to configure your backup settings under My Documents to address your individual gaming needs.

[‡] Parental Control features are not supported on Mac or Windows 10 in S mode.

[§] Dark Web Monitoring is not available in all countries. Monitored information varies based on country of residence or choice of plan. It defaults to monitor your email address and begins immediately. Sign in to your account to enter more information for monitoring.
